## MEMORANDUM FOR THE RECORD

SUBJECT: Arms Control and Disarmament Agency Add-on to [REDACTED]

25X1

T&amp;M Contract - Discussion with [REDACTED]

25X1

1. Jim briefed me this date regarding the initial work request from ACDA. The initial [REDACTED] add-on will not be sufficient to accomplish the following two tasks:

a. Evaluate deactivated ICBM sites by comparing pre- and post-deactivation photography (KH-4 and some low-level photography supplied by RADC). The evaluation will be conducted at the Center. Jim will provide me with the name of an IEG contact, who will determine if the task will be of benefit to the Center.

b. Evaluate [REDACTED] imagery. [REDACTED] is the IEG contact who will determine if the task will be of benefit to the Center.

25X1

2. ACDA [REDACTED] requested 11 March that an additional [REDACTED] be added to the current contract to enlarge the scope of activities. I requested that he send to me an outline of the proposed tasks, and hereafter, insure that I receive a copy of all technical correspondence issuing from or to ACDA and [REDACTED] re the current contract. He assured me that I would. Once I receive this information, I shall request Joe White to add the monies if I am convinced that the research will benefit the Center.
